

MPEL has the pleasure in keeping you informed of its activities. We would like to mention a small change in the way we are structuring our services, this having as objective to always give the best possible service to our esteemed customer.

We are calling the “Luxembourg Center of Competences (LCC)” the pole of our activities now, described further in the small presentation given here after.

The main pillars of the “Luxembourg Center of Competences (LCC)” are Knowledge & Know-how in Engineering Economics and Risk Management, with an extra competence through our IS IT platform.
